

## Roster

### System Fixes

Ticket #	Comment
	<p><b>Displayed Roster Hours</b></p> <p>An issue was reported where the hours in the Roster screen were being displayed as double the amount they should be. This has been fixed.</p>
	<p><b>Reports</b></p> <p>Various report fixes have been implemented to account for weekly and fortnightly pays. The reports in question are:</p> <ul style="list-style-type: none"> <li>• Actual Daily Timesheet Decimal</li> <li>• Pay Details with Roster</li> </ul>
	<p><b>Employee Search in Roster</b></p> <p>An issue was identified where searching for an employee in a multi-period Roster would not always highlight the correct employee. This has been fixed.</p>
	<p><b>Relief Driver View in Roster</b></p> <p>An issue was discovered where incorrect drivers were being displayed in the Relief drivers window. The criteria for drivers to be displayed in this view (in order)</p> <ul style="list-style-type: none"> <li>• Driver has no work for the Roster period</li> <li>• Driver is a member of a Duty Group marked as Relief</li> <li>• Driver is on an X line</li> </ul> <p>This has been fixed.</p>
	<p><b>Exporting Roster to Excel</b></p> <p>The right click export to Excel functionality was not working in the Roster screen. This has been fixed.</p>
	<p><b>Opening a Fortnightly Roster</b></p> <p>An issue was discovered where the program would error when attempting to open a fortnightly Roster screen. This has been fixed.</p>
	<p><b>Swapping Employees in the Roster Changing Awards</b></p> <p>Swapping employees in the Roster was changing the Awards for the employees. This behaviour has been present in the Roster for quite some time. This has been altered so that swapping employees no longer updates an employees Award to the incorrect one.</p>
	<p><b>Shift Loads Using Shift Sheet Loader</b></p> <p>An issue was fixed where incorrect times were being populated due to the data present in the .out file being loaded.</p>

## Enhancements

Ticket #	Comment
	<p><b>Fatigue Management</b></p> <p>Fatigue Management has been developed in the Roster screen. More detailed information will be made available in a separate document.</p>

## Despatch

## System Fixes

Ticket #	Comment
	<p><b>Driver Showing as Late Signing on When Absent</b></p> <p>An issue was raised where when a driver was marked absent for a second piece of a Shift that required a Sign On was still shown as Late signing on for that work. This has been fixed.</p>
	<p><b>Setting Timesheets from Despatch</b></p> <p>The drivers pay department will now change appropriately when setting Timesheets from the Despatch screen</p>
	<p><b>Setting Timesheets from Despatch</b></p> <p>When a Reason has been added to a Despatch Shift Sheet this will now flow to Timesheets when they are set from the Despatch screen. The Reason needs to be entered on the first line of a Day Type block for this to occur.</p>

## Enhancements

Ticket #	Comment
	<p><b>Bulk Printing of Driver Shift Sheets</b></p> <p>It is no possible to print all Driver Shift Sheets for a day.</p>
	<p><b>Web Yard Plan</b></p> <p>The Web Yard Plan has been ported to Java code and now has a new landing page when first opening so the Depot can be selected without having to include the Depot Code in the URL.</p> <p>It is also possible now to select whether 'ALL' active company vehicles are displayed or only the DEPOT active vehicles are displayed.</p>

## Charter

### System Fixes

Ticket #	Comment
	<p><b>Incorrect Charter Calendar Counts</b></p> <p>Invoiced Charter Trips were being displayed as still to invoice in the Charter Calendar. This has been fixed.</p>
	<p><b>Charter Sales Analysis by Type Report (No Despatch)</b></p> <p>The performance of this report has been improved.</p>

### Enhancements

Ticket #	Comment
	<p><b>Bulk Printing of Driver Shift Sheets</b></p> <p>It is now possible to print all Driver Shift Sheets for a day.</p>

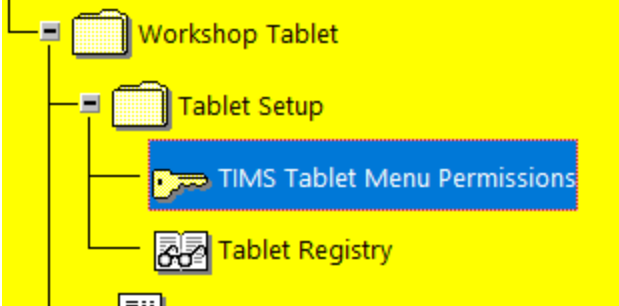

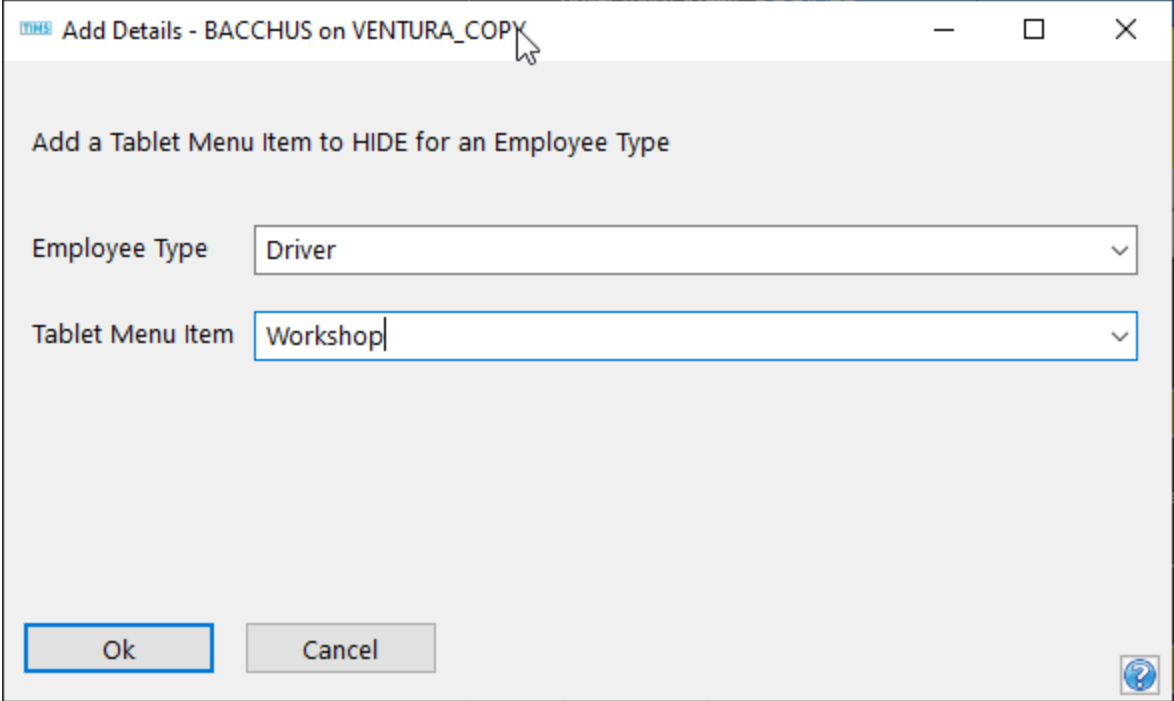

## TIMS Tablet

### System Fixes

Ticket #	Comment
	<p><b>Last Checked Date/Time for a Vehicle</b></p> <p>The last time a PTI check for a vehicle was done was not being displayed in the TIMS Tablet. This has been fixed.</p>

### Enhancements

Ticket #	Comment
	<p><b>Auto Rotate</b></p> <p>The Tablet application will now automatically rotate between portrait and landscape depending on the tablet orientation.</p>
	<p><b>Defect Notes</b></p> <p>It is now possible to add further notes to historical open Defects on the TIMS Tablet</p>

Ticket #	Comment
	<p><b>User Access</b></p> <p>User groups are now used to determine access for employees logging onto the TIMS Tablet.</p> <p>A new Setup item is available under <b>Workshop Tablet &gt; Tablet Setup</b></p>  <p>Employee Types are used to HIDE TIMS Tablet Menu Items. Example shown below</p>  <p>This entry will HIDE the Workshop menu on the TIMS Tablet for employees with an Employee Type of 'Driver'</p>
	<p><b>Inspection Component Description Length</b></p> <p>The length of the description on a Pre-Trip Inspection Component has been increased from 30 to 100 characters.</p>
