Roster / Despatch

System Fixes

Ticket #	Comment
	Leave Generated in Rosters Employees who do not have Rostered work will have leave generated correctly in the Roster now
	SmarTrak Interface The interface to the SmarTrak product has been improved with accurate representations of vehicle allocations flowing from TIMS to SmarTrak
TAP-89827	**New Duty Groups in Rosters** A Duty Group that is added for a Roster, that didn't exist in previous Roster generations, now has employees correctly allocated as set in Employee Duty Group
TAP-89821	**Copy Shift Books** An issue was raised where if a Shift Book was copied any Shifts in the Shift Book that had links to Awards had those links removed in the new Shift version. This has been fixed.
	Car Travel in Despatch An issue was identified where the incorrect dates were being used for CAR work in the Despatch screen, causing all CAR work to be at the bottom of the screen out of time order. This has been fixed.
	Incorrect Roster Types An issue was raised where incorrect Roster Types were displayed for Shifts in the Despatch screen. This has been fixed.
	Shift Naming A check has been put in place to ensure new Shift Codes are not the same as codes used internally by TIMS
	Despatch Yard Window It is now possible to maximise and restore the Yard Plan window using standard Windows controls, instead of having to manually maximise the window

Enhancements

Ticket #	Comment
	Improved Austrics Import Routine The Austrics Import routine used when importing schedule data using CSV files has been optimised with significant speed improvements

Ticket #	Comment
	Austrics to TIMS Integration It is now possible to export schedule data directly from Austrics into TIMS. This has enabled speed improvements when loading the schedule data into TIMS. Various fixes have also been included in this optimisation.

Charter

System Fixes

Ticket #	Comment
TAP-91278	**Invoice Counts in Charter Calendar** The Charter Calendar was displaying incorrect counts of Trips to Invoice when not all Trips in a Charter have been invoiced. This has been fixed.

Driver Touch Screen

System Fixes

Ticket #	Comment
	Public Holiday SignOns An issue was identified when a non-working Shift was displayed as the Shift to SignOn for an employee when it's SignOn time was before the working Shift SignOn. This has been fixed so the correct Shift is displayed for the employee to Sign On to.
