TIMS RELEASE NOTES – OPERATIONS   MAY 2021

Roster   Despatch   Charter   School   Cash Manager   Performance Monitor
Human Resources / Training   Driver Touch Screen   Trip Booking

Roster / Despatch

System Fixes

Ticket #	Comment
	Charter Work to Timesheets from Despatch An issue was identified Charter Trip numbers were not being populated in the Timesheets Notes field when Timesheets were set from Despatch. This has now been fixed.
	Allocating Work in Despatch that Causes a Fatigue Breach An issue was identified where allocating work to driver does not indicate that a Fatigue Breach would occur. This has now been fixed.
TAP-74407	**Vehicles with Safety Defects** An issue was identified where a Vehicle was not unallocated from future work when a Safety Defect was created for the vehicle. This functionality is dependant on the Defect un-allocation level set for the Depot. Future work for the vehicle on the day will now be unallocated immediately, whilst work on future days will be unallocated as part of overnight routines.
TAP-82902	**Fatigue Night Rest Breaks** An issue was identified where Night Rest Breaks were being incorrectly calculated. This has now been fixed.
	Roster/Timesheet Audit The sort order for the Roster/Timesheet Audit table was incorrectly sorting dates in descending order. This has now been fixed.
TAP-82874	**Daily Shift Sheet by SignOn Report** An issue was identified where incorrect vehicles were displayed. This has now been fixed.
TAP-82858	**Roster Generation** An issue was identified where Roster generation will fail if a Driver in the previous Roster did not have a Duty Number. This has been fixed.
TAP-82733	**Roster Generation** An issue was identified for Roster Periods that start in a middle of the week and the Rosters move from School Term to School Holiday in the Roster Period would cause the incorrect Shifts to be generated into the Roster for the School Holiday. This has been fixed.
TAP-81817	**24/28 Summary Report** The fatigue counts in the 24/28 Summary report were being displayed incorrectly. This has been fixed.
TAP-81420	**Despatch Relief Driver List** An issue was identified where adding a new Business Unit to the Despatch screen display would not display all Relief drivers for the Default Business Unit. This has been fixed.
TAP-79049	**Breakdown Fault Type** A Breakdown Fault Type was previously required to have Show in Touchscreen enabled to allow Operations staff to set it in Yard Plan Faults tab. The Breakdown Fault Types will now display regardless of Driver Touch setting.

TAP-77999	**Shift Changed SMS** Multiple SMS messages were being sent to drivers when Shift changed notifications were sent out. This has been fixed.

Enhancements

Ticket #	Comment
	No Roster / Despatch Enhancements in this release.

Charter

System Fixes

Ticket #	Comment
TAP-83880	**Charter Driver Instructions (Standard)** Improvements were made in the display of other Vehicles and Drivers for Charter Trips where multiple vehicles have been booked.
	Print Charter Invoices An issue was identified where the Depot filter in Print Charter Invoices was not working. This has now been fixed.
	Charter Invoices (for Review) A an issue was found where deleting a Charter Invoice from the Charter invoices (for Review) screen would occasionally cause and error. This has now been fixed.
TAP-83242	**Charter Hours Km and Revenue Report** The way the revenue amount was being calculated has been adjusted to correctly account for all Trip movements.
	Charge Code Selection An issue was identified when the Charter Debtor selected does not have any Charge Codes associated, but all Charge Codes will be displayed. On selecting a Charge Code in this scenario the Billing lInes would freeze. This has been fixed.

Enhancements

Ticket #	Comment
TAP-82915	**Charter Quotes by Officer Report** An Excel version of this report is now available.
