

Roster / Despatch

System Fixes

Ticket #	Comment
	<p>Shift Maintenance Asking For Minimum Information</p> <p>An issue was identified that when a Shift was being created or altered the program was saying that Allocation and Pay Lines were required. This was incorrect and has been resolved so that Shifts can be created without the need for Allocation or Pay Lines.</p>
TAP-73940	<p>Rosters with Multiple Business Units</p> <p>An issue was raised that sometimes the system allocates a shift from another business unit to the wrong duty line for an employee. This causes the shifts to show in the incorrect business unit in dispatch which confuses operators. This has been resolved.</p>
TAP-82311	<p>Shifts with Invalid Note Lines</p> <p>An issue was raised where if a Shift had a Note line without a time, generating Timesheets would fail. A change has been made to the Shift Sheet form to ensure all lines have times.</p>
TAP-74997	<p>Changing Shift in Timesheets Resets Day Type</p> <p>An issue was identified in Timesheets that when a Shift was changed by typing in the Shift code, in certain instances the Day Type for the line will change. This was incorrect behaviour and has been fixed.</p>
TAP-82217	<p>Fatigue Checking Ignoring Break</p> <p>Despatch Fatigue checking was not always identifying that a paid break was present. This has been fixed.</p>
	<p>Removal of Fatigue Reports in Roster and Despatch</p> <p>Fatigue reports have been removed from the Roster and Despatch screens.</p>
TAP-86558	<p>Timesheet (Week) Generation Error</p> <p>An issue was identified where Timesheet (Week) generation will fail if there are lines in the Roster with a Line Number of 0 and no work on it. A fix has been applied that will allow Timesheet (Week) generation to not fail when this scenario is present.</p>
TAP-86100	<p>Shift Times in Incorrect Order</p> <p>An issue was identified That Shifts who have a portion that starts and finishes before midnight and the second portion that starts and finishes after midnight had times displayed in the incorrect order in Roster and Timesheets. This has been fixed.</p>
TAP-85128	<p>Timesheet Generation Error</p> <p>An issue was identified that when multiple lines in a Shift Sheet around Arrive/Depart/Meal have the same time and location will cause the Timesheet generation process to fail. This has been fixed so that this scenario is accounted for and will allow Timesheet generation.</p>
TAP-85728	<p>Web Yard Plan Not Synchronising with Despatch</p> <p>The Web Yard Plan was not correctly updating the Despatch Yard Plan. This has been fixed so that changes in either updates the other</p>
TAP-84023	<p>Employee Unavailability</p> <p>An issue was identified when an existing Employee Unavailability record was changed from one type of leave to another. This was not updating correctly in the system. This has now been fixed.</p>
